The New Garage

Friday's Big Event.

The Women's Institute opened its tenth season on Friday evening, Jan. 6, with a highly successful Community Party, over 400 people taking advantage of the invitation of the W. I. In the absence of the Mayor, Principal Clarke acted as Chairman in a capable manner. The first part was a musical program of a high-class order. Song, "Fair-leafed Clover," Mrs. J. Wilson. Piano solo, Mrs. C. E. Clarke. Recitation, "Jaska," Mr. Bell. Song, "There's where the West Begins," Ray F. E. Wilson. Violin solo, Mr. F. Clarke. Quartet, "Sweet and Low," Mesdames Wilson and Outway. Messrs. Hardwick and Jones. Recitation, Fish Story, Mr. Haineworth. Song, A Southern Lullaby, Mr. C. E. Clarke.

Each item being encored by an appreciative audience. The hall was then cleared for games. The children's games were superintended by Mrs. Gates and Mrs. Wilson. The grown-ups indulging in group games organized by the teachers and Mr. Haineworth.

A supper was served from a gaily-decorated table, under the able convensorship of Mrs. Umbach, assisted by a committee of ladies.

The Grand March was formed, headed by Mrs. T. E. Pugh (the first W. I. President) and Mr. Mallach. The children following in the same manner afterwards.

This ended the first half of the program. The evening was concluded by an impromptu dance.

The Hostesses and Members of the W. I. take this opportunity of thanking the friends who assisted with the program and helped with donations.

Town Council's Appointments.

At the last Town Council meeting the following appointments were made for the ensuing year: Secretary-Treasurer and Auditor—F. W. Lewis. Medical Officer of Health—R. M. Oatman. Board of Health—Lawrence Wright for 3 years; J. F. Clarke for 2 years.

Celebration at Comet.

On Wednesday evening a large crowd gathered at the home of Mr. and Mrs. Thomas Oraden, at Comet, to celebrate the housewarming of their new residence. Games of all kinds were indulged in, and also cards. A very nice supper was served at midnight, after which a number tripped the light fantastic to the music of the town musicians.

Congratulations

To Miss Marjorie Anderson, on the anniversary of her natal day, Sunday, Jan. 15.

To Master Thomas Shivers, on the 12th anniversary of his birthday, Sunday, Jan. 15.

Bulletin Contest.

The contest at present, on, for \$10,000 worth of prizes, given by the Edmonton Bulletin, is creating quite an interest among local readers of the city paper. Among the candidates in this district are: Rev. E. Eberhardt, John H. Miller, Wm. Gamble, with Harold Rodgers of Spruce Grove. Another contender who has but recently come to the front is R. L. Canada's Needs

No. 2—Agricultural Prosperity

Concluding the first article in this series in which the greatest need of Canada, in order that it may become the nation nature intended it should be, was declared to be adequate population, the view was expressed that, first and foremost, it should be definitely ascertained why so many people left the country; in a word, why Canada failed to hold the people who immigrated to the Dominion, and even failed to hold its own native born.

The fault should be clearly established, and, in the opinion of the writer, it is not far to seek. It is, we believe, to be found in the fact that, despite Canada's enormous area of fertile agricultural land, the wonderful productivity of its soil, and the virility of its climate and people, the business of farming is not a paying one, with the inevitable consequence that agriculture languishes and thousands of people who engage in it give up after years of struggle, while other thousands go on from year to year without making any material advance and become wholly disheartened.

As long as such a condition continues, and millions of acres of prairie land remain unsettled and unproductive, all industry in Canada will suffer, our railways will continue to be operated at a loss or be forced to impose such heavy rates upon the commerce of the country as to constitute another and serious obstacle to settlement, development and the business of the Dominion.

All observant men must admit that there is something radically wrong when the second largest grain crop ever raised in the Prairie Provinces, that is so far as quantity is concerned, proved to be, not a debt-paying crop but a debt-producing crop. The hundreds of millions of bushels of grain grown and harvested in 1921 should have given a great impetus to business in Canada, should have paid off millions of debt contracted in the previous poorer years, and should have started many people on the road to prosperity. But, alas, taken as a whole the crop of 1921 cost the farmers more to produce it than they realized from its sale. And this disheartening experience of the grain grower was duplicated in the case of the livestock producers.

Under conditions such as these it is quite futile, and a waste of time, energy and money to endeavor to secure thousands of new settlers to come to Canada and engage in agricultural production. Conditions confronting and governing agriculture in Canada must first be righted.

There will always be years in which adverse weather conditions occur, years when plagues of grasshoppers, or rust, or some other pest will prevail to a certain extent, but every farmer is prepared for these. These things alone did not bring thousands of Western farmers face to face with disaster and ruin this year. Despite such drawbacks, and notwithstanding the high costs incurred in connection with the raising and harvesting and marketing of the 1921 crop, there would have been a profit had anything like a price comparable with the costs of production been obtainable. But just as soon as the crop began to move the bottom fell out of the market and the grain had to be sold, if sold at all, at a price less than the costs of production and transportation.

That's the situation in a nutshell, and the result is that not only the Western farmers, and the West generally where prosperity depends upon the success of the farmers, but the whole industrial world in Canada is suffering. Business in the East as well as in the West is in the doldrums, is vitally, seriously, affected.

Agriculturists, we repeat, expect to face the vagaries and cope with the vicissitudes of nature, but as individuals they cannot combat such a combination of circumstances as confronted them during 1921 and will confront them again unless Canada wakes up as a nation and grapples with what is our outstanding national problem. A solution must be found, and found speedily, if Canada is to grow and prosper.

Canada can only live and prosper by developing a large and profitable export trade. The chief exports of this Dominion are, and for many years must continue to be, the natural products of its farms, its mines, its forests, and its fisheries. World markets for these products must be found and developed. The fiscal policy of this Dominion should be so framed as to encourage such a development.

A home market for factory products is of no value if the home people have not the money wherewith to purchase the manufactured goods, and the great mass of Canadian consumers cannot have money if the products of Canada's farms do not command a price in excess of the cost of producing grain and livestock.

Thickly populated countries may be self-contained, with an industrial urban population sufficiently large to consume all that the agricultural rural population can raise, and vice versa, but not so in a country like Canada with an enormous undeveloped area of arable land and other natural resources and a sparse population thinly spread out in a line three or four thousand miles long. Canada must produce more from its land than its own people can consume, and a profitable market must be had for the surplus in order that the whole country may prosper.

To Extend Railway

Line North From Cochrane Will Open Up Rich Area
The Ontario Government is calling

for tenders to extend the Temiskaming and Northern Ontario Railway from Cochrane 75 miles toward James Bay. The cost is expected to be under \$3,000,000. This railway will open up one of the finest agricultural areas in the north country; also great timber areas and almost unlimited water power. It is estimated that at the Tin Can Portage, where the proposed extension will end, are water powers running to waste which would produce 250,000 horsepower.

Coldest Place in U.S.

Barro, Mont., is said to be the coldest place in the United States. Its winter temperatures are lower than the winter temperatures of Alaska. At Point Barrow, the northernmost point of Alaska, the lowest recorded temperature is 66 degrees below zero, while Barro has not infrequently recorded temperatures below 65 degrees.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale. She not only tires out easily but often suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Delima Lafreniere, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had headaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Counting House Genies

An electrically-driven instrument is now made which moistens the gum on envelopes, turns down the flap, seals them up, then stamps them, counts them and turns them out ready for post—all at the rate of one hundred a minute.

It is usually safe to say that when a child is pale, sickly, nervous and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

"YOUR TEETH"

CLEFT PALATE.

By KRA PROCTOR M.D., Editor of "Oral Hygiene"

The roof of the mouth is called the palate. There are two parts to it, the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palate lengthwise. In these cases the nose and mouth open into each other.

It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak distinctly and have great difficulty with the fluids of the mouth and nose, usually through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically cover the opening in the palate.

The nature of the deformity makes the wearing of this plate very unpleasant for the patient.

When a child is born with a hard-plate and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed. Then have the palate closed as early as possible. If these children are successfully operated on before they learn to talk, the voice will be normal. If the cleft is left until the child becomes accustomed to the faulty use of the tongue that is necessary with the open palate, his speech will never be perfect.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what suffering is. Many do know, however, from experience how immeasurable is the relief provided by that preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Leads West in Honey Production. Manitoba's honey production for 1921 amounted to 901,900 pounds, derived from 14,711 colonies of bees. This province now leads all others in Western Canada in the production of honey, followed by British Columbia with 309,073 pounds.

Training Canadians To Speak

Value of Teaching the Youth How to Speak in Public

One of the most important projects undertaken in connection with public schools, high schools, universities and by professional instructors, is that of teaching the young Canadians how to speak in public.

Ideas and thoughts only have value in direct proportion to the extent to which they are spread.

The crusades would never have materialized had Peter the Hermit not inspired the Christian world with his fiery eloquence. Without his ability to talk, the capture of the Holy Land would have remained as a magnificent dream in Peter's brain.

People go to church and hear a sermon. If the minister is a trained speaker, his ideas are twice as effective as the ideas of the preacher with a halting tongue.

Upon the clarity of a school teacher's delivery depends the thoroughness with which pupils receive and digest new ideas.

Business men meet together to discuss business problems and new sales methods. The merchant who can clearly put his thoughts and discoveries before his colleagues, elevates business as a whole.

Organs of speech were given man to use. It is man's duty to bring them to as great a state of efficiency as his muscles, his brain or any other part of his body.—Vancouver Sun.

Minard's Lickment For Colds, Sin

MISS FRANCES NEWMAN, Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 3630 Hirsch, St. Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Tanlac I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for I'm enjoying life again."

Tanlac is sold by leading druggists everywhere.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

Dockage on Grain.

"It is difficult to understand why grain is not more frequently cleaned in the country, the dockage ground and fed at home. In some years there is scarcely a car of No. 1 or No. 2 grain received; white car after car of No. 4 and No. 5 and no grade grain is sent into market. This always lowers the price," says H. A. Foss, weighmaster, Chicago Board of Trade.

"Besides freight must be paid upon the refuse contained in these cars and moreover the dockage must be charged back against the shippers."

"It would seem that farmers' organizations should undertake to ship nothing but the very finest grain available and insist upon a high price for it, feeding the poorer grades at home."

"Millers will always pay a premium for clean grain, and it may readily be seen that the lower grades cannot fail to cheapen the whole crop if sent to market. If nothing but clean grain were shipped, thousands of cars would be released for other duty. The attention of co-operative societies is urgently called to this phase of the problem."

Stony Plain Town Council.

The Councillors of the Town of Stony Plain held their inaugural meeting last week, with the newly-elected Mayor presiding. All Councillors present, excepting Mr. J. S. Lord.

The first matter taken up was the work of the new Council, and how it was to be performed. It was finally decided to have three committees, with two Councillors on each, and the Mayor ex officio member of each committee. These Committees are:

1—Building Committee. Duties, repair sidewalks and public buildings, supervise the laying of new sidewalks and erection of public buildings and bridges. Members of committee—J. Asmussen and H. Oppertshauer.

2—Standing Committee. Duties, looking after the roads and street construction. Its members are Jacob Miller and Dr. Oatway.

3—Fire, Light and Pound Committee. Duties, to look after fire apparatus and fire prevention in buildings, and Pound. Members of this committee are T. J. Hardwick, J. S. Lord.

Complaint having been made as to cows running at large at the present time, in the town limits, some discussion took place on the matter, and it was finally referred to the new committee.

Several bills were passed and ordered to be paid.

Mr. Russell Wood to be asked to accept the position as fire fighting supervisor, and the deputies to be Messrs. G. Oppertshauer and J. L. McCabe.

A resolution was passed that the Town piano be put up for sale by tender.

Baby Beef Brings Big Prices.

Market reports state that the price of the best quality of beef for Christmas was exorbitant in comparison to the price of ordinary beef.

There was a difference of over 12c a lb. between the specially fattened beef for Christmas and the ordinary. This is an increase of 100 per cent over the difference prevailing at Christmas time, 1920, which was only 8c.

Dealers are unable to account for this high price of the best grade of cattle, as there has been no increase in the cost of feed that would justify it. One wholesaler says that in his opinion the public are demanding better meat, and will not buy the poorer qualities, thus sending the price of the farmer up.

Lonely Bachelors, 'Shoo!

Two lonesome, winsome English misses; prepossessing, bright, vivacious and musical, have written Lieut. Governor Brode, asking him to find them a husband apiece.

As His Honor has not had any practice as head of a matrimonial bureau, he has appealed to the press to render assistance, and states that should any gentleman be interested, he will be pleased to give the names of the ladies and their address. The letter reads:

"London S.W., England.

Dear Sir—I am writing to ask you if you think that there are any eligible bachelors in your State (farmers not objected to) you could recommend as prospective husbands for my sister and myself.

As you know there are no many superfluous women in England, and as we have no father or brother, and are out to work all day long our opportunities of meeting nice possible bachelors are very rare.

My sister is aged twenty-two, tall, fair and of very prepossessing appearance. For myself, I am aged twenty, not quite so tall, but also have my share of good looks. Bright, vivacious and musical, can work, having to assist in all household duties at home. Can supply a clean bill of health from my doctor.

Father was a chemist by profession.

We would like to meet with clean-living boys in fairly comfortable circumstances. Knowing that there are an over supply of bachelors in Canada we thought perhaps you could assist us in this little matrimonial venture.

Can supply any further particulars on application. Should be pleased if they could send photographs. Kindly do not publish name and address.

At the Edmonton Spring Show, to be held April 10 to 15, the Children's Calf Feeding Competition will be under the same regulations as last year—children over 8 and under 17 years may compete; and in the beef section either purebred or grade steers or heifer calves of 1921 may be shown; while in the Dairy Section only heifer calves, purebred or grade, may be exhibited.

Twenty prizes will be given in the former class, and 12 in the latter.

The Federal Department of Agriculture offers the same classes and prizes as last year, but this year requires that all sheep and swine exhibited must have been owned by the exhibitor for at least two months previous to the opening of the exhibition, and cattle must have been owned by the exhibitor for at least 100 days previous.

A pamphlet showing the classes and regulations will be mailed to any inquirer.

The name at the end of the telegram was unknown to either Harris or his son, but Gardiner assured them it was one to conjure with in the financial world. Riles' excitement was scarcely less than Allan's. Gardiner choked a flood of questions on his lips with a quick imperative glance. Even Riles did not know that the telegram had been written a few doors down the street by a stoutish man in a pepper-and-salt suit.

"I'll take a chance," said Harris, at last. "I'll take a chance."

"Chance nothing!" interjected Gardiner, with momentary abruptness. "It was a chance a minute ago; it's a certainty now. It's the clock of a lifetime."

"Where some paper?" asked Allan. "Let's get a telegram away right off." Gardiner produced a notepad and, at Harris' dictation, drafted a telegram to Bradshaw, directing him to dispose of the farm at once along the lines of the instructions already given him. He was to cash the agreement and wire the proceeds to Harris.

Then followed long anxious days. Fortune seemed to hang on Bradshaw's success in making an immediate sale of the farm. It was a large order, and yet Harris felt confident a buyer would be found. The price asked was not unreasonable, especially when it was remembered that the crop would go to the purchaser, and was now almost ready for the binder. Bradshaw was in constant touch with well-to-do farmers from the South who were on the look-out for land, and his own banking facilities would enable him to forward the cash as soon as a sale was assured, without waiting for actual payment by the purchaser. So

Strength

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes:

"I had been troubled for quite a while with indigestion. At times there would be a twisting of the nerves of my stomach, and I also found it difficult to get a good night's sleep. I am a middle-aged man, and owing to the nature of my work my system becomes run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and my sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone overworked and needing a tonic."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmundson, Bates & Co., Limited, Toronto.

Harris was confident in the wisdom of his anxiety.

A gentleman's agreement had been made with Gardiner and Riles that not a word was to be said concerning their investment until it was a completed fact. Gardiner dropped in occasionally to learn if any word had come from Plainville, but it was not until the afternoon of the fourth day that the fateful yellow envelope was handed in at the hotel. As it happened, Gardiner and Riles were present at the moment. They slipped into the back room and waited in a fever of expectation for Harris to announce the contents.

Harris and Allan read the message twice before speaking; then Allan repeated it aloud:

"Twenty thousand dollars proceeds sale goes forward by wire your bank. Correspondence follows. Will explain failure to get price asked."

"Bradshaw," Harris was torn between emotions, and his face worked with unthought nervousness as he struggled with them. That Bradshaw should have sold the farm for half the price he had stipulated seemed incredible. It was robbery; it was a breach of trust of the most despicable nature. On the other hand, if the amount available would enable them to buy the mine, the huge profit assured from that investment would much more than offset the loss on the farm. Gardiner and Riles, too, were visibly downcast when they heard the amount, but Gardiner promptly grappled with the situation.

"It's less than we figured on," he said, "but perhaps we can get through still. The thing to do is to get out to the mine at once with this money. It will be sufficient to prove the genuineness of our intentions, and induce him into town. Then Riles can put up some and I can put up some, and that, with the twenty thousand, should hold the deal until Riles can realize on his farm. Within a very short time we can turn the whole thing over to the New Yorkers, and take in the profits."

"Say, Gardiner," said Allan, speaking as one who had been struck by a new and important thought. "Where do you come in on this deal? Is your old sink up in the hills coming through for half?"

"Not a cent," said Gardiner. "As for where I come in, well, dealing with old friends like Riles and the Harrises, I considered that a secondary matter. I fancy that when they feel the profits in their pockets they will be disposed to be not only fair, but generous, and, of course, if I put up part of the money I will expect my share of profit. But I'm not asking for any assurance; I'm just going to leave that to you."

"Well, that's decent, anyway," Harris agreed. "I haven't as much money as I expected, but if we can pull it through it may be all right yet. Of course, you remember that I haven't promised to put up a dollar unless I like the looks of the mine when I see it!" Harris still had quivres of hesitation about entering into a transaction so much out of his beaten path, and he took occasion from time to time to make sure that an avenue of retreat was still open.

"That's the understanding, exactly," Gardiner assured him. "You're the man with the money, and if you don't like it, don't pay."

Harris at once visited the bank, and returned shortly with the information that the amount, less a somewhat startling percentage for transmission and exchange, was already deposited to his credit.

"Then let us lose no more time," said Gardiner, with enthusiasm. "You will need a team and rig, and you better pack a couple of blankets and some grub. Make the stableman throw in a couple of saddles; you may have to ride the last part of the trip. Riles and I will make it the whole way on horseback."

Gardiner then remembered that it would be necessary for him to go back to the ranch and change horses, but he described in detail the road they should take, and assured them they could not miss it. It was the main road up the river valley—up, and up—and if they drove hard they would reach that night a spot where an old, deserted cabin stood back in a clump of poplars. It would be a good place to spend the night, and Riles and Gardiner would meet them there, if, indeed, they did not overtake them on the road. Neither Harris nor Allan had any fear of a strange trail; they had been bred to a sense of direction and location all their lives, and were confident they would find no difficulty in reaching the rendezvous.

"Better make your own arrangement about the horses," Gardiner whispered as they left the room. "We can't be too careful to keep our business secret."

As they stood for a moment in the waiting room it occurred to Allan that some shooting might be found in the mountains. "You haven't got a gun you could lend me, I suppose?" he said to Gardiner.

"What do you want a gun for?" Gardiner demanded brusquely. "Might get a shot at a partridge, or something. No harm in having one along, is there?"

"Oh, no, but I don't expect you'll see anything to justify the trouble. Anyway, I haven't got one."

"There's a shot-gun here," said the hotel clerk, who had overheard the last remarks. "It that would suit you. A Cholly who was taking a short course in poker put it up a few days ago as a stand-off on his cat score. There's ten bones against it: M. H.'s worth that to you, take it."

He handed the gun over counter, and Allan examined it with interest. He recognized an English weapon of

BEECHAM'S PILLS Sweeten the Stomach

a value out of all proportion to the price asked.

"I'll take it," he said, and paid down the money. There was a momentary darkening of Gardiner's face which nobody noticed.

The little party then moved out to the street. Gardiner had regained his smooth manner, and gave some final directions about the road.

"Oh, we'll find it all right," said Allan, in high spirits, "and we'll beat you to the phanty unless you've some faster nags at home than any I see you driving. So long."

"So long," called Gardiner. "So long, and good luck."

"So long, an' good luck," repeated Riles. He was trying to play the game, but, as Gardiner often reminded him, he had no imagination. It would have been quite impossible for Riles, on his own initiative, to have thought of wishing the Harrises "good luck" on the journey they were about to commence.

They were interesting types of villains—one, gentlemanly, suave, deep and resourceful; the other, coarse, shallow, slow-witted and brutal. The offence of one against society was wholly intellectual; of the other, almost wholly physical. Gardiner, fully appreciated the difference, and in his heart he felt a contempt and loathing toward Riles which he concealed only as a matter of policy. And he had worked out in his mind a little plan by which Riles, when his usefulness was ended, should be shuffled off without any share in the booty. At present he tolerated him because of necessity. There was work before them for which Riles was peculiarly qualified.

The Harrises went at once to a lively stable, where they arranged for a team and outfit. They then bought some cartridges for the gun, and a small handbag in which to carry the money.

When Harris presented himself at the bank wicket and asked for the full amount to his credit in cash, the narrow-faced teller turned a trifle paler still and slipped into the manager's office. A moment later the manager himself appeared before them.

"It's a pretty heavy order on a country bank, Mr. Harris. Of course we could give it to you in exchange, but to pay twenty thousand dollars or thereabouts in bills will drain us to almost our last dollar. Can't you use a marked cheque, or a draft on a Calgary bank?"

"Well, no," Harris said; "I'm afraid we can't."

"A marked cheque is as good as bills," the banker argued, "and much easier to carry, not to speak of being safer," he added, as an afterthought. "Travelling with that amount of money on you is a sort of defiance of natural law, especially with the country full of strangers, as it is at present." The banker looked from the powerful frame of the farmer to the equally powerful frame of the farmer's

son, and his eye fell on the gun which the latter carried under his arm. "But, I guess," he continued with a laugh, "there isn't much danger on that score."

"Neither I speak of," said Harris. "And while I don't want to break your bank, I do want to get that money, and I get it in bills, or part of it in gold or silver would do. The fact is, I don't mind telling you I've a deal on, an' I've undertaken to put up this money in cash—no night."

The banker ruminated for a few minutes. Experience had told him that with a certain class of men that with a certain class of men money in bills was more valuable than money in a cheque or draft. The very bulk of the currency seemed to very bulk of the currency seemed to impress them. He had seen an old-timer refuse a twelve-hundred-dollar marked cheque for his property, and yet surrender greedily at the sight of a thousand one-dollar bills piled on a table before him. This was a trait of human nature found in many persons unaccustomed to the handling of

considerable sums of money, and sharp traders considered it good business to take advantage of it. The banker thought he understood why Harris wanted all the money in bills, although the sum was larger than he had even seen handled in that way before.

A young man emerged from somewhere and locked the front door of the bank.

Text Of Provisions Of Alternative Scheme Advanced By De Valera

Dublin.—Following is the text of the most important provisions of Mr. De Valera's alternative proposal:

Statute of Ireland.—That the legislative executive and judicial authority of Ireland shall be derived solely from the people of Ireland.

Terms of Association.—That for the purpose of common concern Ireland shall be associated with the states of the British Commonwealth, namely, the Kingdom of Great Britain, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa.

That when acting as an associate, the rights, status and privileges of Ireland shall in no respect be less than those enjoyed by any other component state of the British Commonwealth; that the matters of common concern shall include defense, peace, war, political treaties and all matters now treated as of common concern among the states of the British Commonwealth and that in these matters there shall be between Ireland and the states of the British Commonwealth such concerted action founded on consultation as the several governments may determine.

That in virtue of this association of Ireland with the states of the British Commonwealth, the citizens of Ireland to any of these states shall not be subject to any disabilities which a citizen of one of the component states of the British Commonwealth would not be subject to, and reciprocally for the citizens of these states in Ireland.

That for the purposes of the association Ireland shall recognize His Britannic Majesty as head of the association.

That so far as her resources permit, Ireland shall provide for her own defense by sea, land and air, shall repel by force any attempt by a foreign power to violate the integrity of her soil or territorial waters, or to use them for any purpose hostile to Great Britain and the other associated states.

The document sets forth in detail in somewhat similar terms to the Downing Street treaty the particulars regarding coastal defense, with a list of harbor facilities and an agreement to build no submarines except by the consent of the British Commonwealth of states, makes a convention for the

regulation of civil communication by air, assume an arbitrated share of the British debt and war pensions, agree to endow no religion, and arrange for the election of a provisional government and for ratification.

An annex names, Berehaven, Queenstown, Belfast and Lough Swilly as harbors remaining in British care, with facilities for the coastal defense by air.

A resolution added to the document expresses willingness to grant the northeast six counties any privileges and safeguards not less substantial than those provided for in the document signed at London on December 8.

Will Pay Quarterly Dividends

Merchants Bank Shareholders Will be Paid February 1

Montreal.—It was officially announced here that the shareholders of the Merchants Bank are to receive a 1 1/2 per cent. dividend on their stock for the current quarter. It will be paid February 1 to shareholders of record January 5. This is about equal to that which shareholders will receive quarterly on their stock when it is exchanged for Bank of Montreal stock on the proposed two-for-one basis.

Decrease In Calgary Accidents.—Four persons were killed, 131 were more or less seriously injured and 3,000 automobiles damaged in a total of 1,319 automobile and street accidents reported to the city police during the year 1931. The death rate from accidents was the lowest this year of any year for several years.

Influx Of Workers Alarms Port Arthur

Announced Opening of Shipyard Draws Many Unemployed

Port William.—As a result of the announcement that the war works at Port Arthur would reopen this month, men from all over the Dominion are coming to the head of the lakes. One man even paid his last cent to come from Vancouver, only to find that there was no work to be obtained as the works have not yet opened and there is ample surplus of labor in the two towns when they commence operations.

Civic officials are becoming alarmed at the prospect of a big influx of unemployed from outside, with the certainty that most of the new comers will become a public charge.

Toronto Has Woman Police Magistrate

New Official Was Decorated By King Edward VII.

Toronto.—Dr. Margaret Patterson has been appointed woman police magistrate for Toronto at a salary of \$1,500 per annum.

The new magistrate was born in South Perth, Ont., and graduated in medicine from Northwestern University, Chicago in 1899. She was decorated by King Edward VII. for distinguished service in organizing the national resources of India against the bubonic plague.

Sydney, New South Wales.—The first direct wireless press message to Australia from England was published December 3 in the Sun. It was sent from the wireless station at Carharves, England, a distance of about 12,000 miles.

It was picked almost simultaneously by the powerful wireless stations at Perth, Western Australia, and Melbourne, Victoria, and thence retransmitted to Sydney.

Discuss Important Western Matters At Conference In Winnipeg

Popularity Of Prince

London.—The Prince of Wales, speaking at a dinner in Rangoon, according to a Reuter cable, said that nowhere during his three empire tours had he received a warmer welcome than in Rangoon. The extent to which the Prince has captivated the warm hearted Burmese has been strikingly demonstrated on every possible occasion. During a garden party at Government House he received one prolonged ovation. Also while motoring to a dance at the gymkhana, along a route ablaze with Chinese lanterns, the Prince was greeted with an unbroken roar of cheering in striking refutation of the popular belief that an Oriental crowd was never demonstrative.

Says Canada Does Not Need Titles

Toronto Paper Is Against Proposed Restoration of Honors

Toronto.—Under the caption "A Privileged Proposal," a Toronto newspaper says:

"It is reported from Ottawa that French Liberals will make a strong fight for the restoration of knight-hoods and similar honors in Canada. It is strange that such a notion should occupy the minds of public men at a time when so many serious problems demand solution, the tariff, the railways, unemployment and immigration.

"No worthy cause will be advanced by ministering to the vanity of a few socially ambitious men and women.

"The name of Shakespeare or Dickens would not shine any more brightly if it were prefixed by Sir or Lord.

"In England, such titles are the natural growth of the social set and their roots are struck in history and tradition. In Canada, we have neither the tradition nor the social environment. A title out here is as much out of harmony with our surroundings as a coconut tree."

Alberta Exhibits at Seattle

Seattle, Wash.—The Washington State Poultry Association's midwinter show opened here with stock entered from the northwestern states, British Columbia and Alberta. The most distant shipment is that of Charles Hikari's White Wyandottes from Edmonton.

B.C. Seed for Great Britain

New Westminster, B.C.—Fifteen hundred pounds of Douglas fir seed and 1,500 pounds of sitka spruce seed, the first shipment of British Columbia forest seed for the reforestation scheme in Great Britain, has just been made from the government's seed extraction plant here.

Panama Has Record

Panama.—In spite of the world-wide business depression the volume of shipping traffic through the Panama Canal in 1931 set a new record. The tolls for the calendar year were \$18,325,715 approximately \$30,000 more than the previous year, according to the official report.

C.P.R. Shops Re-open

Montreal.—Closed down for a fortnight since about the middle of December the Canadian Pacific Railway Angus shops have reopened here with the usual complement of men. There will be a working week of four days.

To Reduce U.S. Forces

Washington.—A bill proposing to reduce the personnel of the army, commissioned and enlisted included, to 75,000, and of the navy to 55,000, was introduced by Senator King, Democrat, Utah.

No Decision Yet

Ottawa.—It was stated in the highest official circles here that the Liberal Government had not yet discussed the proposal to bury a Canadian unknown soldier in the main entrance of the new parliament buildings.

Winnipeg.—Joint action by Manitoba, Saskatchewan and Alberta, to bring about substantial reductions in freight rates, a reduction in the tariff, transfer of natural resources to control the western provinces and the adoption of similar immigration policies was approved by representatives of the prairie provinces in conference here. Those present at the conference included Premier Norris, of Manitoba; Premier Greenfield, of Alberta; Hon. J. H. Brownlee, Alberta; Hon. C. A. Dunning, Saskatchewan, and members of the Manitoba cabinet.

The deliberations of the conference, according to the official statement, were in the nature of an exchange of views on matters of mutual interest to the three provinces and the trend of the discussions had in view the improvement of conditions of these provinces, particularly from an agricultural standpoint.

In view of the fact that the notions advocated will require to be considered and dealt with by each of the legislatures shortly in convene no definite decisions were arrived at pending action by the respective provincial parliaments.

There was general agreement on the main principles of the subjects discussed, the statement continues, more particularly that every effort should be exerted to bring about substantial reductions in the freight rates, a reduction in the tariff and transfer of the natural resources to the western provinces.

The sentiment of the conference favored joint action, and close cooperation on the part of the prairie provinces with respect to these issues, and the conclusions arrived at will be submitted to the respective legislatures for full consideration, the official statement says.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, sagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in MILBURN'S HEART AND NERVE PILLS.

Mrs. M. Hammond Young's Cove Road, N.H., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at night, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

That Is What You Can Do Provided You Take Advantage of Our Offer

We have made arrangements with the E. H. Heath Co. Limited who publish the **CANADIAN POWER FARMER** whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The **CANADIAN POWER FARMER** is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experience on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editor has just completed a trip of several months over Western Canada in a motor car for the purpose of studying the mechanical needs of the farmers. He visited the farmers, lived with them and worked with them. The results of his trip will appear during the next twelve months.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to THE **CANADIAN POWER FARMER** for the same price as this weekly alone. This is where you make \$1.50 on a bushel of wheat.

SLOAN'S RELIEVES NEURALGIC ACHES

FOR forty years Sloan's Liniment has been the quickest relief for neuralgia, sciatica and rheumatism, tired muscles, lame backs, sprains and strains, aches and pains.

Keep Sloan's handy and apply freely, without rubbing, at the first twinge. It eases and brings comfort surely and readily. You'll find it clean and non-skin-staining.

Sloan's Liniment is your safe remedy. Ask your neighbor.

At all druggists—35c, 70c, \$1.00.

Sloan's Liniment Made in Canada

World Happenings Briefly Told

The wedding of Princess Mary to Viscount Lascelles has been set for February 23, according to the London Daily Mail.

Building permits in Moose Jaw for 1931 were \$500,177, as against \$1,532,000. The 1929 permits included one million for the C.P.R. station and office building.

Unless 100 border amateur radio operators apply for Dominion licenses, the Windsor, Ont., patrol of the Canadian Mounted Police has received orders to dismantle all their wireless equipment.

A Belgian passenger on the steamer Zealand, who had been deported from New York, jumped overboard at sea and was drowned, the steamer's officers reported on her arrival at Plymouth, Eng.

A bomb was exploded among the crowd listening to a band in the market place of Dinkelsbühl, Bavaria, on New Year's Eve, injuring 54 persons, 10 of them seriously. The thrower of the bomb, a youth, and several other persons, were arrested.

The wedding of Charles Phillips, London, had progressed to the point where the registrar asked the bridegroom's full name. Then it was learned Phillips had delegated his brother to take his place while he went to France on important business. The wedding was postponed.

The New Year's toll of casualties from poisonous liquor amounted to four dead and six dangerously ill in New York hospitals, with uncounted scores of cases of acute alcoholism and accidents attributed to holiday liquor. One case of alcoholic paralysis was reported.

The Austrian Government has permitted the fact to become known that the Vickers-Armstrong Company, a British concern, has made an offer to purchase the great Woellersdorf Arsenal, which it is proposed to convert into a plant for the manufacture of locomotives on orders received from the Balkan States.

Profitable Mining

Cobalt District Produced \$980,000,000 Worth of Silver in 1931

According to statistics already gathered and estimates being prepared for 1931 it is evident that the value of silver produced up to the end of 1931 from Cobalt and the surrounding district, will reach an aggregate of close to \$980,000,000. Total dividends from the silver mines will exceed \$21,000,000, and with the treasures containing sulphates, which, combined with disbursements actually made, show a net profit of over 50 per cent. of the gross yield. This is an achievement without parallel in the history of any other metal mining area.

For Hiccups and Heartburn Here Is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nerviline" in sweetened water. Nerviline relieves those conditions that cause the hiccups, just as it does sour risings, gas belching and fermentation in the stomach. For acute stomach pains, bloating, nausea and similar ills, rely on trusty old Nerviline—the true friend of every family. Sold by all Dealers, 35c per bottle.

Growing Tobacco in Manitoba
Tobacco growing is the latest phase of agriculture introduced into Northern Manitoba. Messrs. Jacob and Gaspard, two Belgians, who experimented with it this year, produced a tobacco said to be the equal to the Quebec product. They announce their intention of going into tobacco raising on a large scale next year.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada's First Hemp
The hemp crop for 1931—the first year that it has been cultivated extensively—will be large, according to a Winnipeg company, under whose direction farmers in the province seed and sow the hemp. Five hundred tons will be realized at Portage la Prairie.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Value of B.C. Minerals
An estimate based on official returns places the value of the mineral productions of British Columbia for 1931 at \$24,553,909.

School Survey

A careful survey of the youth of Winnipeg between 14 and 18 years of age has just been completed by the Winnipeg School Board. The results show there are 10,704 boys and girls from 14 to 18 years of age in the city; the boys numbering 5,658 and the girls 5,046. The survey was undertaken to ascertain what proportion of the children completing studies in the public schools have proceeded to the secondary schools.

Dyed Her Skirt To Make Child A Dress

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old, worn, faded things new. Even if she has never dyed before, she can put a new, rich color on her shabby skirts, dresses, waists, coats, stockings, sweaters, coverlets, draperies, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool, or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Child has opened an official pawnshop to advance loans on reasonable terms to workmen.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Expeller.

By making your purchases from your home merchant you are contributing direct to the prosperity of the community in which you live.

CATARHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARHAL MEDICINE is a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARHAL MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

The Marvels Of Aluminum

When Alloyed With Other Metals Weight Practically Unchanged

Ever since aluminum was produced in a commercial form the greatest interest has been taken in its application to various engineering structures where lightness with strength is desirable. It was soon found that when aluminum was alloyed with other metals its strength was greatly increased without any great change in weight. Various alloys of aluminum have been used in the structure of airships and aeroplanes, and the results have been so promising that a special committee was formed in Great Britain to undertake systematic research of the properties of aluminum alloys. A report recently issued by this committee embodies the results of seven years of research conducted in the National Physical Laboratory, which is subsidized by the British Government. This research has resulted in the discovery of many alloys which are of great promise for practically all kinds of engineering, particularly motor car manufacture, railway rolling stock, internal combustion engines and steam engineering. The only problem awaiting solution is the production of these alloys on a commercial scale. Already a beginning has been made in this direction by a British Government factory; and British manufacturers are looking closely into the possibility of producing some of these wonderful substances for regular use in place of steel.

Minard's Liniment For Warts, Corns, Etc.

Tea Frock of Chiffon And Crystal Bugles

By Marie Belmont

Crystal bugles effectively cover this frock of orange chiffon. The dress is simple in design, showing a straight wide panel dropping free in the back from shoulders to hem line.

The importance of little things in costume detail is here symbolized in the tiny band of silver which draws the neck line together in front. The silver note reappears in the underbodice which shows beneath the skirt, and in the narrow silver girdle.

Silver bugles are strung on a background of white, and this frock is very youthful and charming in white and silver.

Minard's Liniment For Distemper

A Certain Cure

Not a hundred miles from Folkestone a few months ago a wife lay very ill. Having brought up a clever orphan girl, the sick woman called the young woman to her and said: "I shall soon leave my little children motherless. They know you and love you, and after I am gone I want you and my husband to marry." The young woman, bursting into tears, said: "We were just talking about that." The wife recovered.

"Cascarets" V Sick

Bilious, Headachy From the Bowels

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold. Are you keeping your bowels clear with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach of sour, fermenting food and foul gases; take the excess bile from liver and carry out of the system all the constipated poison in the bowels. A Cascaret phonic to-night will straighten you out by morning.

Mother! Open

Child's Bowels With California Fig Syrup

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, fretful, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

11 OUT OF 83

Some ended in death! As a recent Canadian investigation showed. There were not cases of infectious diseases—of consumption—of typhoid! They were men where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, secure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 25c. box.

You wouldn't put on hobbles to run a foot race

Then why load up on handicaps for the day's work?

A good deal of food, unwisely chosen, does weigh the body down and clog the digestion, and dull the brain.

Why put on the hobbles?

Grape-Nuts is a breakfast or lunch-time dish for those who want food efficiency, and mind and body efficiency.

Grape-Nuts satisfies and nourishes. It delights the taste. It is ready to serve whenever you are ready to eat. And it digests easily, quickly and completely—leaving no handicap of heaviness and drowsiness.

Grape-Nuts is the food for health and action.
